

DLCMerger

Before using any WeiDU mods in combination with SOD(Siege of Dragonspear) or other DLCs and BGE:EE, it is necessary to install [DLCmerger](#).

1. Get the [latest DLCmerger version](#) from GitHub
2. After the download, unzip the file (e.g. "*win-64bit-A7-DlcMerger-v1.3.zip*")
3. Navigate until you see the folder "*DlcMerger*"

4. Copy and paste both files seen in Screenshot into your game folder
5. Launch "*setup-DlcMerger.exe*"
6. Select the language English or German as they are only supported

```
Choose your language:
0 [English]
1 [Deutsch]
```

7. If the language is asked a second time, then select it again
8. Press "*n*" for not to display the readme file
9. Select option 1 (Merge "Siege of Dragonspear" DLC)

```
Install Component [Merge DLC into game]?
[N]o, [Q]uit or choose one:
1] Merge "Siege of Dragonspear" DLC
2] Merge user-defined DLC
3] Merge all available DLCs
```

10. After that all the WeiDU mods should install correctly.
